

# DIVINE PLAN HEALING SCHOOL

Divine Plan Healing is completely different from Reiki  
or any other healing modality

*Why? Let us point out the main differences:*

- ♥ The Divine Plan Healing System was gifted by **Mary Magdalene**.
- ♥ During a Divine Plan healing you receive the Love and Wisdom of Mary Magdalene and also **The Emerald Heart Light (the masculine aspect of the Christ Light)**. These pure resources of infinite love transform limitations, open your heart and help you moving forward.
- ♥ Divine Plan Healings are **empowering**. Firstly, the Love and Wisdom of Mary Magdalene connects you deeply with your gentle power. Secondly, The Emerald Heart Light (also known as The Light of Truth) shows you the truth in your heart, like your talents, gifts and life mission(s). Therefore Divine Plan healings connect you with your individual blueprint and your life path — your own divine plan.
- ♥ The Emerald Heart Light is a spiritual light, which is totally different from energy. The frequency of a spiritual light is higher than that of healing energy. A spiritual light comes directly from The Source and therefore it is **the purest of pure**.
- ♥ Working with The Emerald Heart Light **goes beyond healing**, it unlocks the God Consciousness in your heart.
- ♥ The Emerald Heart Light has the speed of light and beyond, therefore Divine Plan Healing works **fast and very efficient**.
- ♥ The Emerald Heart Light and the Love and Wisdom of Mary Magdalene work at the Fifth Dimension of our reality, the level of consciousness where all is one. This is the **highest level** on which healing and awareness can take place.

- ♥ Reiki was received around 1920 and was most suitable for people of the 20th century. The Divine Plan Healing System was received in 2013 and is therefore well suited to people of the **21st century**, the era of accelerated personal growth and evolution.
- ♥ **Divine Plan healings can be extended and deepened for 6 (!) weeks.** How? By taking the Divine Love essence (three times a day three drops). A Divine Plan healing session is not an isolated event, but is the kick-off of a transformation process that lasts 1.5 months. This is unique, not available anywhere else and very good value for money.

## Unique Benefits for Divine Plan Healers

- ♥ The Divine Plan is **not a 'hands on' healing system** and is therefore different from e.g. Reiki. How? Because Divine Plan Healers do not use their own body for the transmission of energy. In Divine Plan Healing we are the witness of the healing which the Emerald Heart Light and the consciousness of Mary Magdalene perform. This way Divine Plan Healers cannot accidentally:
  - ✓ pick up client's energies (and vice versa), or
  - ✓ give away their own energy.
- ♥ After a Divine Plan session it is not only the client who is '**purified**', but also the space. That is why our healers don't need to wash their hands or clean the room with sage or something similar, which is absolutely necessary after a Reiki session.
- ♥ In the Divine Plan Healing System you receive **unique attunements**. They align you and connect you with your individual Divine Plan. In addition, they accelerate your personal and spiritual development in an unprecedented manner.
  - The first attunement (part of the first training) connects your heart with the core/heart of **Mother Earth**. This makes your grounding a lot better and enables you to work with the high vibration of The Emerald Heart Light.
  - The second attunement (second training) helps you to balance your masculine and feminine qualities by connecting you deeply with the **masculine and the feminine aspects of the Divine Consciousness**. This has a particularly healing and wholing effect.
